LANCASHIRE BOILER EE-1134

Steel shell is of about 75 cm. long and 20°cm in diameter. Two large tubes known as fire tubes pass from end to end. At the front end of each tube a furnace fire grating is placed and a door is hinged. Brick work, seating and flues are shown in wood work. The boiler is complete with dead weight safety valve, manhole mud hole, check valve, steam & water safety valve, steam and water Gauges etc.
